

Year 3/4 Performing Arts Plans 2018

Term 4

This term, students will use their dance and music knowledge and skills to prepare their school concert performance. We will also be investigating how we can use technology to contribute to a dramatic performance by using Garageband to create sound effects. This will lead into a short media project in which students will create a film with electronic and recorded sound effects.

	MIF
1	School concert choreography
2	Spooky sounds investigation – technology and acoustic instruments
